---

EXPERIENCE

Front-End Developer
Creative Web Co. | Remote | Jan 2022 – Present
- Developed and maintained modern websites using React, Tailwind, and Next.js - Increased page speed performance by 40% through optimized images, lazy loading, and minimized code - Collaborated with designers to transform Figma prototypes into functional, pixel-perfect components

Full Stack Developer
Bright Digital Studio | San Diego, CA | Jun 2020 – Dec 2021
- Built full-stack applications using Node.js, Express, and MongoDB - Integrated REST APIs and implemented user authentication with JWT - Redesigned legacy codebase for client projects, improving usability and SEO by 30%

Web Development Intern
TechForge Labs | Los Angeles, CA | Jan 2020 – May 2020
- Assisted in building WordPress websites and customizing themes with PHP and CSS - Created reusable components and improved UI accessibility - Conducted manual testing and contributed to bug fixes

---

EDUCATION Bachelor of Science in Information Technology
University of California, Irvine – Class of 2019

PROJECTS

DevPortfolio (johnsmith.dev)
Personal portfolio showcasing projects, skills, and resume using React and hosted on Netlify.
